Dear Friends and Fellow Glad Growers:

It is with great pleasure that I send you the 1956 edition of our gladiolus catalog. In it are listed most of the new and outstanding varieties, originating in the U. S. A., Canada and Europe.

This year I am happy to present the first of the "All American Glads" that follow All America seeds and roses in testing for outstanding qualities. I am sure you will enjoy growing these 2 fine new varieties.

As it is only through the confidence and good will of customers that a sound business is built, we continually strive to bring you the best varieties, plus clean disease free, true to name bulbs, that will give you under the proper growing conditions the beautiful blooms you expect.

I appreciate hearing from you as to our bulbs and their performance, also your comments on the varieties as they grew for you.

I am awaiting your valued orders which will be filled with care and attention, and wish you a very Glad year.

Yours sincerely,
G. V. Snyder

We are offering this year the first of the All American Glad selections. These glads are selected as are All America Roses and Seeds and are most outstanding in all respects. You will not want to miss growing these two new selections.

APPLEBLOSSOM (460) A gladiolus of the utmost delicacy of coloring, the predominating hue being snowy white with a faint touch of cream in the throat and an exquisite flush or corona of cool rose pink at the edges of the petals. Up to eight or ten trimly tailored florets, about five inches in diameter and of very heavy substance, are open at a time on spikes up to five feet tall. A vigorous, easy grower that performs excellently with only average culture. Appleblossom will give you a new conception of gladiolus beauty when it blooms in your garden.

The lightly ruffled florets are five inches in diameter and are of good substance. They are a clear light red and the long flowerheads frequently carry up to twelve flowers open at one time. Growth is vigorous and healthy, with the total height of the plants running about five feet. On the occasions when it has been exhibited at gladiolus shows, Royal Stewart has proved to be an outstanding winner of top awards.
